Hello all,

Happy New Year! Attached you'll find a revised draft of the QAPP for the SPod monitoring project, updated to reflect that we will be deploying six Sensit SPods to the community monitoring locations around the Denka plant. We're planning for deployment early this year (exact dates to be determined). If you could give the QAPP another quick review and provide any comments by COB Friday (1/10/2020), that would be greatly appreciated. If you want to provide feedback but won't be able to respond by COB Friday, please just let me know when you'll be able to respond.

Regards,

Dan
